we will see , it is all not so important, the good part is to get some creativity out  
one helicopter only, but...to make up for it...it had its searchlights on , as it is foggy here the whole day.  
From now on I wont post for a long time, at least a month as I will be having other engagements  
Just so you know, no alien abductions here

I hope...

the energy level here is bizarre, even after unplugging the BSB , really , but I would not want to have it any other way..

sometimes I wonder where you and your ilk find the energy to keep going on  
doing all that you all do  
now that s something  
that s really something

maybe time to slow down

## THOSE DAYS ARE GONE

I have witnessed change often  
as peace has come  
To this corner of the world.

My memory holds things  
that a loud bang  
often releases on speck.

I look at my grandson with hopes  
for his future filled with equality  
peace and confidence.

Religious divides diminish  
As the seasons pass.  
Each year; a new spark on the horizon.

I have witnessed change often  
as peace has come  
mostly within myself were winter loiters.

## MISE EIRE

Talk to me of bogs  
of blankets on the land  
talk to me of myths  
you have at your command.  
Tell me of Cu Chulainn  
the hero hound of Ulster  
The battles of the Tain Bo  
and the warriors of Munster.  
The progress of the Firbolgs  
the De Danaans on the hill  
remind me of our legends  
of folklore through the quill.  
Talk to me of forests  
of flora and fauna there  
talk to me of mountains  
in Tyrone and in Kildare.  
Tell me now of future  
of equality in the land  
speak to me of serenity  
so the tribes can understand.

Peeping through cloud  
Crescent moon –  
deciding on sleep

already the blackberries  
are showing signs of death –  
angry Lunasa

full wolf moon  
half clouded over –  
ready for sleep

lonely sky  
evening moon –  
constant companion

## ROSSKNOWLAGH STRAND

It's late October  
the edge of the water  
is layered in white foam  
An Aran scarf curved along  
The seas icy grip.  
Sand is wintered hard.  
Sea far out curls and slaps  
on southern winds and I  
brace myself for the mile walk.  
East wind cuts to the bone  
in a place like this,  
whips away summers lightness  
and reminds me that to enjoy one  
I must embrace the other with joy too.  
Gulls straggle along the shore,  
find it difficult to stay afloat.  
I make faces to the wind as it  
Carves its grip into my crow's feet.  
The hotel lights guide me back  
back to a warm coffee pot  
back to write and my mind  
freed from world thoughts  
Gets to work.

One of my chickens did not make it , they only live three years, the brown ones, the others live longer, so I got myself a dark one this time  
after a few days of squibbling they sort of accept each other.... no more hen fights , they do sleep together in the chicken house. The first day the black new chick has to stay outside but now she is allowed with the big white chicken. Due to the stress they have not laid any eggs for some time but that will hopefully change.

[Re: THE IRISH TOPIC](#)

Just for the record, it was not me , your Honour, I have no idea why the sky turns blue where I visited...a pure mystery

why the folk get more happy and all that...

Being very busy with other engagements at the time so we will slow down considerably from now on. All that needed to be said has been shared and for the few who can manage and carry the fire they will get a lot out of it.

Most won't , that s just how life always has been.

It is nice we have been able to pass on the achievements of people far more clever than we are, people like Josh and Timo and the others from the Healing Mob, especially shaman Tony and , in my estimation, one of the best orgonite maker around, MG aka Stephen, who explicitly spend a lot of time and energy in getting the word out, sharing results and igniting the spark in many new folk, starting from scratch taking a huge step into the unknown where few have gone before and so it mote be.

Nothing to regret, lots to share, lots to help the Searcher of Truth on his or her individual path to knowledge and a deeper meaning that's always been around the corner but hard to grasp.

It is still there, even if few find it, does not mean it is not there.

Also, this working with natural life force energy, it is not something to talk about too much, it s like painting or doing good work in so many forms, it should not be analysed till death so to speak, it should be experienced, learned from and played with.

There is a lot in it, and, just like learning how to play a guitar , it will not happen overnight, it will take some time, some struggle, etc, to get it more right, to find your way.

**Re: [THE IRISH TOPIC](#)**

On one of our regular Monday 'jaunts' gifting Dublin's waterways. Again the Royal Canal, beside Croke Park Stadium. This has to be the most thoroughly gifted Waterway in the country, with about 60 kilos being gifted today, mostly into the water.

We also looked after a huge mast that could not have been any closer to the little cottages below.

The third photo is interesting, we had gifted all along the canal, as we came to this spot suddenly there was a big burst of bubbles from under the water, gushing up and sending ripples out over the water. It was eye-catching. M suggested it was the water welcoming us, and saying, this is a good place for a gift. It ties in with a chat I had with another water gifter, Fintan from Wexford, who had a similar experience a couple of weeks ago. He threw a bottle into a quarry, and watched as the ripples spread out. But instead of gradually abating, the ripples kept on coming strongly for several minutes. He was quite taken aback, and wondered about its significance and, therefore, got a little tingle of recognition when we started talking about our experience with bubbles in the canal. Fintan has taken it as confirmation that what we are doing is good, and welcomed by the water elementals.

Fintan is talking about driving along the quays beside the River Liffey and lobbing Selenite randomly into the water as he goes. I'm trying to discourage him as attracting too much attention, but he says he doesn't give a f..k

**Re: THE IRISH TOPIC**

Not Plasterite related, but possibly in relation to Sunflower's blogs about 'gurus' and dugpas :

I love this poem by W.B. Yeats 1919.

The Fisherman.

Although I can see him still—  
The freckled man who goes  
To a gray place on a hill  
In gray Connemara clothes  
At dawn to cast his flies—  
It's long since I began  
To call up to the eyes  
This wise and simple man.  
All day I'd looked in the face  
What I had hoped it would be  
To write for my own race  
And the reality:  
The living men that I hate,  
The dead man that I loved,  
The craven man in his seat,  
The insolent unproved—  
And no knave brought to book  
Who has won a drunken cheer—  
The witty man and his joke  
Aimed at the commonest ear,  
The clever man who cries  
The catch cries of the clown,  
The beating down of the wise  
And great Art beaten down.

Maybe a twelve-month since  
Suddenly I began,  
In scorn of this audience,  
Imagining a man,  
And his sun-freckled face  
And gray Connemara cloth,  
Climbing up to a place  
Where stone is dark with froth,  
And the down turn of his wrist  
When the flies drop in the stream—  
A man who does not exist,  
A man who is but a dream;  
And cried, "Before I am old  
I shall have written him one  
Poem maybe as cold

And passionate as the dawn."

*A Drinking Song*

*Wine comes in at the mouth  
And love comes in at the eye;  
That's all we shall know for truth  
Before we grow old and die.  
I lift the glass to my mouth,  
I look at you, and I sigh.*

-- W. B. Yeats

*An Irish Airman Foresees His Death*

*I know that I shall meet my fate  
Somewhere among the clouds above;  
Those that I fight I do not hate,  
Those that I guard I do not love;  
My country is Kiltartan Cross,  
My countrymen Kiltartan's poor,*

*No likely end could bring them loss  
Or leave them happier than before.  
Nor law, nor duty bade me fight,  
Nor public men, nor cheering crowds,  
A lonely impulse of delight  
Drove to this tumult in the clouds;  
I balanced all, brought all to mind,  
The years to come seemed waste of breath,  
A waste of breath the years behind  
In balance with this life, this death.*

-- W. B. Yeats

I am not that overwhelmed by Yeats, not my sort of poems  
I think Aine MacAodha is better than Yeats  
the way she attaches nature and all sorts of elements into her work is much more interesting than Yeats  
also Aine is sometimes more outspoken and I like that too  
not so "fluffy" as Yeats  
so abstract, shall we say

that is MY opinion  
again, not political correct

I prefer German poets or Japanese poetry

much deeper, more delicate, more "occult" to use that word

Gurus and duggas, it's the controlled opposition  
real leaders and such are almost extinct  
and if someone really makes a point like this Kelly over in the UK  
it is swiftly dealt with the Kennedy way  
the moment you really get power is the moment you realise consciously that the real power is inside you  
literally  
that's the secret  
I mean completely, sure some guidance and training are beneficial  
listening to the elders, those in the know that sort of thing  
the shaman, the tribesman, the medicine man or just the awakened soul, if you can find one nowadays

Sean Maguire looks reasonably awake to me  
as far as I can tell from what I've heard until now  
the "city shaman"  
but we are all "plumbers" you see, we are not authorized  
so we don't count as Orwell said  
the proles don't count  
he meant the masses, the sheep  
Maybe Gobshite Duncan, that prick that is like Trotsky, spouting his NWO hoopla, depopulation, global  
warming, communitarianism, bla bla bla bla  
He would "fit the bill"  
He would sure be allowed to lead the herds and he does  
he plays the game, like Alex Jones and those other filth  
they are all the same, everyone in the "truth movement", ah have a laugh, they all know each other  
should ring a bell, but most don't smell a rat even when they step on one

I see him already on the board of directors, wow, he knows where his bread is buttered, you see Jenn  
if you get tired of waking folk up you can put your resume at Duncan's bunch, he would give you a nice  
green job  
so you can kick people out of their homes for not being able to pay fees to the fascist communist club,  
the UN.  
Or discontinue their energy supply during winters that sort of thing  
they take depopulation serious  
and it is just starting up  
they are on a roll now  
will get much worse

Eldorado for the psychopathic mind and there is no shortage of that sort of folk  
they all end up at directors board of the Green future  
Red is green now  
yep  
new shirt, same mantra  
environmentalists

gimme a break

doing their anti smoking campaign, have a laugh, just have a laugh  
they are dumping chemicals on us in every way possible  
chemtrailing goes through the roof especially after cop 21 in Paris, last year  
they really open the floodgates now, you might have noticed that

big time now  
not a peep

not a fucking peep  
ever  
no no no

<http://www.ash.ie/about-ash-ireland/board/>

but if you light up a fag , oh my my my, you must be send to a gulag, at least  
for reprogramming  
you icebear puppy killer with your smoking oh you you you  
you...eh ...global warmer

brainwashing the herds and be honest about it , it works so darn well  
and if you look through the deception they call you terrorist or whatever  
or dissident, pfffffffffff, they think they are so smart but they are not  
the problem is most folk are so brainwashed they get away with their conology

Anyway

will post once in a while but will be mostly at the other website  
as running a forum with so few people is not really that stimulating or how to say, does not give a good  
impression to newcomers maybe

# P ropaganda

**o** nly through the active energy of the intelligent few can the public at large become aware of and act upon new ideas.

**p** ropaganda bears the same relation to education as to business or politics. It may be abused. It may be used to oversell or to mislead and to create in the public mind artificial values. There can be no absolute guarantee against its misuse.

**a** presidential candidate may be "dislodged" in response to "overwhelming popular demand," but it is well known that his name may be decided upon by half a dozen men sitting around a table in a hotel room.

**g** overnments, whether they are monarchical, constitutional, democratic or communist, depend upon acquiescent public opinion for the success of their efforts and, in fact, government is government only by virtue of public acquiescence.

**a** s civilization has become more complex, and as the need for invisible government has been increasingly demonstrated, the technical means have been invented and developed by which opinion may be regimented.

**n** owadays the successors of the rulers, those whose position or ability gives them power, can no longer do what they want without the approval of the masses. They find in propaganda a tool which is increasingly powerful in gaining that approval.

**d** emocracy is administered by the intelligent minority who know how to regiment and guide the masses.

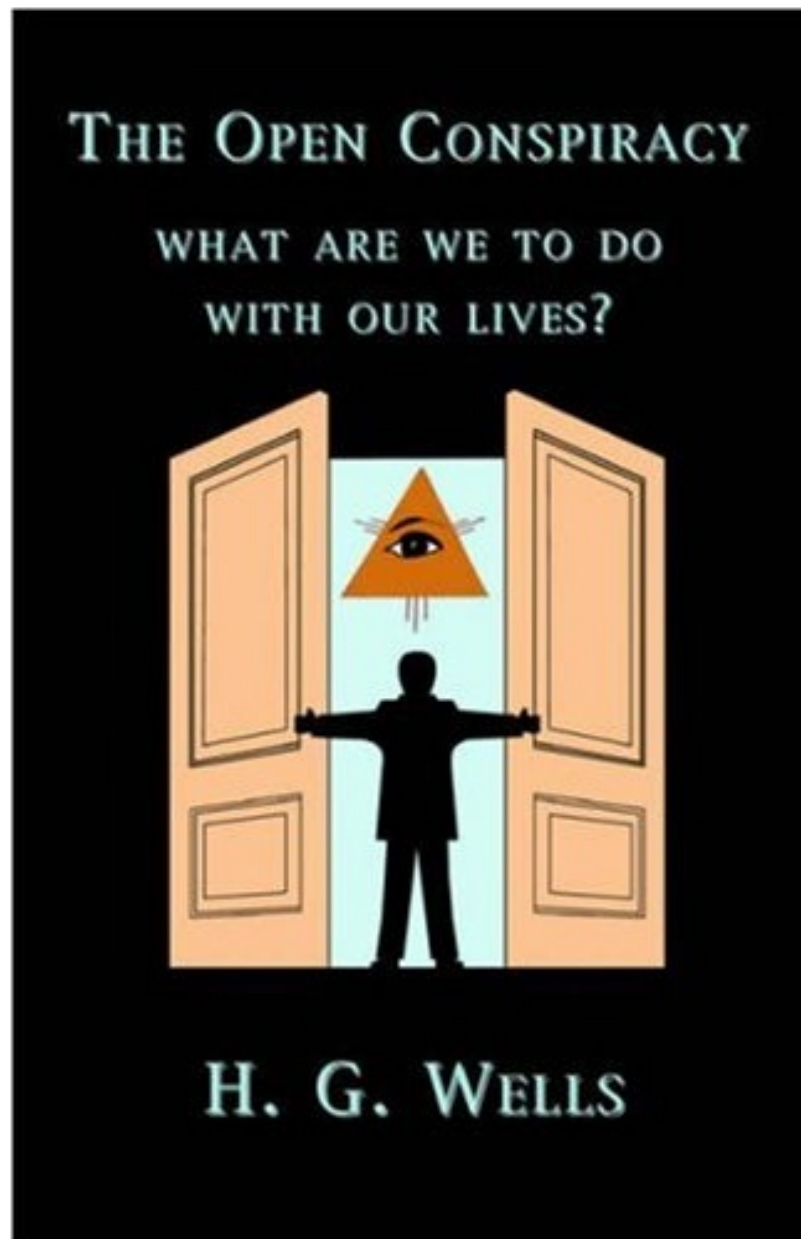

**a** n entire party, a platform, an international policy is sold to the public, or is not sold, on the basis of the intangible element of personality.

The " new" website is the place to be from now on, have to abandon this forum more or less as not too much is happening here

despite 40.000 hits in about a year, that s not too bad for such a grassroots thing

Maybe it is best if we leave it as it is , J, I know you are on facebook etc, so maybe best do your thing there

you can, if you like, always post here, but I wont interact much more here.

It is time to move on for me, with my personal website.

The only reason for me to restart from scratch this all is just out of respect for Josh, that s all because it works

**[Re: THE IRISH TOPIC](#)**

Aho!!!!

I've been a little quiet as of late, lots of activities outside of "this", pampering our new puppy and focusing a great deal on my own health. So, before I forget, I just would like to give a STANDING OVATION, to the man of many, many names, who creates all of THIS! It's time consuming and not always fun updating forums and websites, this I know! And the new website is simply awesome!

I'm always trying to find ways or allow ideas, to filter through from the Universe, Mother Earth, Angel Jacques, etc... I ask and ask, what can I do? What can I do differently, that will make a bigger difference? What haven't we tried?!?

Sometimes, the crazy ideas are too crazy, and I stick them in the mud and leave them to recycle, perhaps. Sometimes, I take a peek at them, stuck in the mud, and suddenly, a flower blossoms! \*smile\*

I'm going to share a few things, please ask anything you wish in regards to them, for they just might be, one or two of the flowers in the mud..... \*bigger smile\*

My 11 year old step son, Joshua, or Josh (of course, LOL) has quite recently made me take notice of him. Not only has he grown much taller through this latest growth spurt, but he has taken such an avid interest in all things Uncle Tony Shaman! Hee hee.... He listens. He ponders. He has some amazing insights and ideas. He recently noticed one of my older wands, a 12 inch copper tube with a large quartz point on one end, the other has a piece of bamboo shoved inside of the tube, and I believe at one point that was filled with charged water, and it seals off the bottom end of said wand. To my senses, the wand still had some punch, but not overly strong. I handed it to him and told him that I had a test for him, if he was willing to accept it? The test was this: take this wand, make it your own, and increase it's Energy / Magic to a much higher level. He said YES, grabbed it, and disappeared. One day later he brought it to his Mom to check it out, and she called me while I was at work, and told me that my old wand NOW was smacking her with Energy, from 5 feet away!! LOL Bravo, Josh!!!!!! Passed my first test with flying colors.

I then gave Josh a new challenge and test. I asked him to use the same method that he used to charge up the wand, to create a Plasterite charging plate. The concept I outlined to him is something called bootstrapping. I wanted him to take one of our large Flower of Life plaster pieces, and to make it much, much stronger, through his method. As of right now, day 2, the Plasterite plate is HUMMING! I wanted him to create this charging plate, with the idea that we would take a finished piece, place it on the plate, and super charge it! \*smile\* What made me even prouder of the boy, was the fact that he incorporated the wand into his setup, to charge up that plate! YES!!!!!! I also told him to listen to his intuition, and to take as long as he felt was necessary to get it to it's new "level". There maybe another Flower of Life plate after this one, for the next level UP! I really wanted to see, if after curing and completion, if I could boost the POWER of our Plasterite Creations.....

Along those lines, I am working on a different level to do the same, hoping to combine the two ways, to make something special, is my hope. I have shared a little about something called Radionics, and now that I have a Radionics device, it came to me the other day, that perhaps I might find what the "rate" is, for chemtrails. In Radionics, everything, and I mean EVERYTHING, has a 3 digit rate, or number, such as 215, for instance. The concept is, that you can use various methods of dowsing to determine the rate for anything. You simply state what you wish to find and then dowse each digit of the rate, one at a time. So you ask, what is the first digit of the rate for chemtrails? Is it a Zero? If no, then you ask, is it a One, and go all the way up to Ten, as the highest number. 0 through 10. Once you have that rate, you can now dial it up on the Radionics device to reproduce it. OR, you can use that rate and REVERSE it, to determine a "cure" rate. If the rate for chemtrails is 002, then the cure rate for it would then be 10 10 8. You take your original rate number, and for each number, subtract it from 10. So  $10 - 0$  is 10. What I intend to do, is use that reverse rate or cure, imprint it into a small vial of distilled water, and then, take a few drops of it, and add it to the Plasterite! \*HUGE SMILE\* Will it work? I will tell you what I find as I do! I'm going to dowse the results, like with the charging plate. Tomorrow we test the plate by taking two hearts from the same batch, put one on the plate for an hour, the other will be our standard, to compare against!

The last bit of fun that I am working on is to improve the BSB model. I love what Jenny recently shared, where she hooked up three cones in series ..... I've been playing around with Keshe Foundation technology as well, and with that, there is a method to nano coat wiring. The conception is that by

creating a nano coating on the wires, they now allow bi-directional flow of Plasma (Aether) energy. I'm going to start with 25 feet of stripped copper wiring, nano coat it, then shrink wrap plastic around it, and leave both ends uncovered. One end will get embedded inside of the cone, the other will go to the ground connection in the electrical outlet. I get a BIG buzz in my head when I construct it, in my head....  
LOL

Of course, I would use the charging plate and hopefully the Radionics remedy drops on that cone too....

Blessings and Plasterite Dreams!

Tony

[Re: THE IRISH TOPIC](#)

I dare to smile, for the awake ones it is obvious , by now, that having shaman Tony around always gives out constructive good vibes, it's a real bonus I can tell you. I have noticed that more than once how he can grab the damaged souls and sort of does his thing and something worthwhile comes out of the mold. If I didn't know better I'd say he is perfect for things like counseling, you know, helping people who lost track, who get overwhelmed by the world, you know what I mean.

It is a gift, a treasure, call it what you want but it is there and it sort of slides more to the front of things , topics, etc

like he enters the room, feels the vibes, the energies, qualifies it, takes it in, make a new symphony out of it, out of the discords, looking for weak and strong points in the matter and starts intuitively to work on it and getting it right , or at least better than it was before.

Do you notice that too, Jenn? It is very clear to see and it is an amazing talent, to use that word for lack of better suited words maybe.

My personal healer is not that talented, but she is good enough , doing her own particular way of healing which is effective in the end too, so.

Medium weight, Tony is more like a heavy weight absolutely, just more experienced in many facets of life

a broader horizon, that sort of thing, more curious too, more into expanding and learning

Kids don't have that much filters of perception in place, ie have not been brainwashed properly yet, so they understand rather fast and move ahead, hope it stays like that for time to come and it is not pounded out of him

like it is with most folk around us. It is not their fault. It is just the way the system wants us to be.

Nice story.

It is a very nice story, maybe one of the best we ever had.

As real and profound as it gets , still in touch with this world and also opening doors to the other world

It rings a lot of bells

so it's not just me heheh

nope

[spoiler]There are those out there who will understand by life experience what it entails, that it is real.

Might take a few years of learning to get there, but if one wants to get there with the heart one will get there

This understanding of the world, looking through the deception of the world and hopefully , touch the other world

and learn that one too gradually to embrace.

Maybe for ancient peoples, nomadic tribes, etc it came as a sort of second nature , something that did not need too much explanation, but for most of us it is a real challenge to learn to deal with the other world

the bigger picture or , do we dare to use that weaponized word...." spirituality"

almost a curse word now

Some might say the invisible word but that is also not an accurate description as it sometimes comes into this reality, comes into plain awareness, bluntly sometimes, as some of you know by your own work.

The sylphs and orbs, these and many other forms of energy manifestations are revealed to the searcher of truth

The German guy, this Timo he showed me some pictures of it , he had a few on his old website

but those are peanuts to the things I have seen coming of my Tools of Light.  
It happens but it is rare, those white blue sparks or round shapes , small usually  
like a glitter, funny enough I sometimes made very small pieces , like an apple, and blue white light  
simply crushes out of them like lightning and you think WTF or ...I got it right this time  
and later on you realize it has " something to do with intent" although that cannot be rationalized  
completely  
into a basic logic construct  
because it does not fit into this world  
it does not work like that  
In the right hands a tool of Light can be a marvelous companion  
It cannot be boiled down to a formula and leave it there that s not how it works

It is the Stradivarius of Energy work  
no doubt  
but only in the hands of those who are able to play a bit of violin in the first place  
or at least have some incline to music and harmony and beats and vibes to get on the wild horse in the  
first place  
new, but fearless and just follow the good heart and inner wisdom, there is nothing to fear  
only to learn and to be in awe of  
and it was always there  
a sort of rabbit hole too , yes, but not into darkness as we have seen enough of that and we know where  
their rabbit hole is supposed to go , no, to a better world, maybe enough , maybe not, who can tell, but  
at least it gives the  
entrepreneur of energy work a chance to succeed and to be a real human spirit with a lot of benefits that  
are attached to that too  
there is always a price to pay  
in many ways  
as the Cherokee know it's not the hoopla we see around us all day long, this endless mindless  
brainwashed slur of " love and light" against all sense of reality  
it has nothing to do with that, it has to do with spiritual balance and progressing  
it has to do with transformations  
not in the pay me 1000 dollar for a fancy session bla bla bla, what we see a lot nowadays  
those big organisations running the show now for all the confused folk to be herded in  
As that thing has really become too silly now  
these courses , do five courses for big bucks and you are a healer  
yeah ....right...my ass...  
but that s how most folk want it to be  
no real experience, not the hard work, the ups and downs  
all happy happy  
no negativity please and for sure no reality  
they want pleasure and happiness without doing the work  
without the growth without anything basically

like a fast food thing, this here is the money , gimme the healer badge  
people always look to the outside for solutions or answers

regurgitating smart quotes from so called " good folk"

the Ghandis, the Nelson Mandela s etc etc

the dalai lama, bla bla bla

have you really looked into the topic ?

nah

as if you would you would know they are all on board with the agenda

they all belong to the secret societies , high Freemasonry, Knights of Malta and the rest of it

all promoted to the sheeple to drool over and feel so " infinite conscious" about

burps..

That's all fake

but folk love fake

they adore it

not having a clue what s really going on

and most don't want to know what is really going on

if you catch my drift...

It may - the selenite way - not work out for everyone in the same way and maybe it is not intended to  
work for everyone in the same manner. Maybe that's the way it must be.

If you really want truth one will have to sacrifice

a lot

but over the years it gets easier as one loses much crap one has been influenced with

so the burden gets lighter and easier to carry

as you grow into balance

into connecting with the other world

and stay in balance as you are still in this world

make sure you keep things to yourself and dont brag about it or you know, show too much of it to other  
folk

the world out there

as they will grind you into obedience asap

so " stop the f@ck waking folk up " hehehehe

once they grasp a bit of what s going on, you can help them, a bit, not too much

be very reluctant in that , dont overdose them

don t become that lecturer or evangelist shouting down at them from your culprit

etc etc

take it easy

they cannot swim across the canal, for heavens sake, they cant even swim

they have to wear their ducky armbands to even stay afloat so be mild on them , really you should.

But if one can help out or teach or be an example , use that oportunity, as we saw in the story of little " josh" doing his thing there. In short use your time only on people who are worthwhile to use it upon. In a way that s a good thing as there are so few folk who are really worthwhile you have plenty of time left to do your own improvement and doing the good work so you don't become too rusty.

That s some experiment you have in story, holy critters...  
a bit too complicated for this simple soul but I like it absolutely  
Regarding the tripple BSB ah well, have that going for a year here , usually offline.  
As everytime I hook it on all hell breaks lose, you know that  
Biggest energy storm wave ever  
Never really thought it would be necessary , never thought it would become that bad  
but after Cop21 in Paris they let it all loose on us

big time now

crazy shit, weather manipulation reaches new heights and that includes the chemspraying etc etc

so yes I do feel obligated to active the tripple one occasionally

Have gotten used to the amazing energy of the plasterite now , for basic pieces but everytime I connect that tripple one to the grid I still shake , it is that strong.

whoosh , like stepping out of a cave into the sun

bam

like a love hammer

still knocks me off my feet

and that s the way I love it

you know, we have tried to bring across the topic and the solution part to the mobs on FB, those silly chemtrail groups and the rest of it, to no avail, obviously

not a peep there

But we have no say in the matter, the ordinary human has not say in anthing

no no, it s only the authorized sources, these sellouts, these Dane Gobshite Wigginton types

all on board with the " global warming" agenda

they run the show, like our green fascist/communist Duncan in Ireland, those slimebags own the place now.

they get the funding from the NGO s etc

to brainwash the masses properly and kick down on anyone who stands up for real values as real values are long obsolete now, we have to make way for the new , you see, the new

whatever that new may be , it aint gonna be good for ya , you can take that to the bank

no limits there

Funded groups who support the World NWO agenda only

all others.....exit...keep that in mind

There is a lot to talk about when it comes to agendas , the world agenda

but I do that on my blog , not here

might spoil the fun here LOL

Very impressive and moving post thank you Sunflower. Now I need to find the Affirmations you wrote for our little 'Plasterite Affirmation Group' which takes place every Sunday 7 pm GMT. Would be thrilled if anyone who sees this would like to join in, it only takes literally a few minutes and is very powerful, emotional and effective.

Just a small pour this evening as suffering withdrawal symptoms. Love the smooth surface these moulds produce and the smell of Oregano and Geranium essential oils - Oregano for healing and Geranium for loving oneself.

 **Tony Geron** I would only say, or add, that yes, intention, ALWAYS, plays apart of our Creations, regardless of our recipes or ingredients! 😊 Having watched the "Master" make such, it was almost all seaweed, with only a small portion of sand.... but in the truest form of the "original" mixture, the seaweed was only one part of various quartz powders... 😊

 **Tony Geron** All the flavors of quartz crystals.... pure white quartz, smokey, citrine, rose, amethyst, and the seaweed.... I think... 😊 Jacques, would pour Rescue Remedy upon the crystals, pray to them and ask their forgiveness, and then have them crushed..... and ASK that they combine, to Create, the Purest, REMEDY, to all things.... 😊

 **Stephen Geddes** These Life Pillow / orgonite / Tensor ring combos were made a couple of days ago ... all double dipped ... the larger pieces in the foreground still in the mould .... in the Tb and pocket sized pieces, the combination is brass swarf, smokey quartz surrounded by the Tensor ring .... the Life pillow mix in the base is ground kelp seaweed (about a litre all up when mixed with the resin), a handful of beach sand and two tablespoons of crushed quartz ( clear, smoky, rose, amethyst and citrine)....in the larger pieces, seashells added for phi resonance ....certainly a unique combination and perhaps the best devices that I make....cleans up EMF and changes the polarity of anything harmful in food, water etc and relief from pain in many circumstances .....enjoy....

**Stephen Geddes** Finished after a double dip in resin . the largest of the hand held sized Life Pillow combos ... In the top , orgonite..., a brass and quartz chip seed of life pattern with lapis lazuli at its center... surrounded by a heavy gauge Tensor ring ... the bulk of the piece is Life Pillow mix , described above.....sweet..

# WAKING UP IS PAINFUL

WHEN YOU ACCEPT:

YOU FEEL:

That 911 was an inside job  
and our government murdered  
those people, not Muslims

Depressed because the ones  
you trusted your entire  
life and thought were the  
"good guys" are the real killers

The true enemies are the  
bankers and politicians  
and they control us like slaves

Enraged because you know  
they are evil psychopaths but  
helpless because you don't  
believe you can stop them

What you were taught in school  
is mostly wrong, everything on  
the news is a lie and nothing  
is as what it seems

Stupid because you were  
tricked and angry that they  
continue to deceive your  
family and friends

## THUS WHY PEOPLE CHOOSE TO STAY ASLEEP

**[Re: THE IRISH TOPIC](#)**

*An old Cherokee is teaching his grandson about life:*

*"A fight is going on inside me," he said to the boy. "It is a terrible fight and it is between two wolves. One is evil – he is anger, envy, sorrow, regret, greed, arrogance, self-pity, guilt, resentment, inferiority, lies, false pride, superiority, and ego." He continued, "The other is good – he is joy, peace, love, hope, serenity, humility, kindness, benevolence, empathy, generosity, truth, compassion, and faith. The same fight is going on inside you – and inside every other person, too."*

tow3.jpg (13.14 KiB) Viewed 44 times

*The grandson thought about it for a minute and then asked his grandfather: "Which wolf will win?"*

*You might heard the story ends like this: The old Cherokee simply replied, "The one you feed."*

*In the Cherokee world, however, the story ends this way:*

*The old Cherokee simply replied, "If you feed them right, they both win." and the story goes on:*

*"You see, if I only choose to feed the white wolf, the black one will be hiding around every corner waiting for me to become distracted or weak and jump to get the attention he craves. He will always be angry and always fighting the white wolf. But if I acknowledge him, he is happy and the white wolf is happy and we all win. For the black wolf has many qualities – tenacity, courage, fearlessness, strong-willed and great strategic thinking – that I have need of at times and that the white wolf lacks. But the white wolf has compassion, caring, strength and the ability to recognize what is in the best interest of all.*

*"You see, son, the white wolf needs the black wolf at his side. To feed only one would starve the other and they will become uncontrollable. To feed and care for both means they will serve you well and do nothing that is not a part of something greater, something good, something of life. Feed them both and there will be no more internal struggle for your attention. And when there is no battle inside, you can listen to the voices of deeper knowing that will guide you in choosing what is right in every circumstance. Peace, my son, is the Cherokee mission in life. A man or a woman who has peace inside has everything. A man or a woman who is pulled apart by the war inside him or her has nothing.*

*"How you choose to interact with the opposing forces within you will determine your life. Starve one or the other or guide them both."*

Haven't had the time to look into the above topic ha ...

but thanks for sharing that information, also big hug for sharing his dowsing sheet  
for those who are interested in it

I don't mind dowsing at all, did it a few times, but never " orgonite" related.

because I dont need to , but it can be of use in certain areas where questions might arise  
like what materials to use, or to ask a certain direction, that sort of thing.

I know Stephen is hot about it, but you see that's grande

we don't have to be clones of eachother , we just do what needs to be done in the way we feel right and try at least to

stay away from agendas and the rest of the freakshow.

Not easy to do these days as it is almost everywhere.

maybe we should introduce a " sustainability" disclaimer here...

tease...

*Mr Kenny said Ireland's legislation will set out objectives under four headings dealing with agriculture, energy, buildings and transport.*

*He said that we will be one of the few countries to have that.*

*The Taoiseach said he will also say that Ireland will continue to increase the public finance for climate change, to contribute to the green development fund from 2016 onwards, and to increase the amount we give for the least developed countries.*

*He will also point out that Ireland wants, and will participate in, achieving climate goals that are fair and sustainable.*

*Mr Kenny said that Ireland had lost a decade of investment that cannot be recovered.*

*He said he will tell the leaders that Ireland faces a challenge it has an economic engine to enable it to change structures and to continue to invest in research and innovation for more sustainable ways of doing agriculture.*

*Ireland does not want to see a situation where it becomes limited terms of what it can produce only to find that food we would have produced is being sourced in other countries with inferior standards and higher carbon emissions levels, he said.*

*Mr Kenny said that these are matters for detailed discussions over the next couple of weeks with officials who will continue with debates after the roadmap has been sent out and signed off on by the global leaders in Paris this evening.*

*When it was put to him that his approach suggested that he is looking for wriggle room in relation to Ireland's climate change commitments he said the European Commission climate targets for 2020 overestimated what agriculture in Ireland could actually deliver.*

*The Taoiseach said Ireland wants an understanding that we are serious about achieving fair and sustainable climate targets but that we need space to be enabled to deliver on that.*

*He said that in future years Ireland will ramp up its contribution to the green climate fund for which the Government is contributing €2 million next year.*

*Earlier, US President Barack Obama said the global climate summit in Paris is a "turning point" in the fight against global warming.*

the more karma  
will seek you out  
and destroy the  
china hidden in your  
closet.

Cowardice is no virtue.

Courage

Take your violence home  
and be sure not to let it roam.  
Muster the strength inside  
to abide the pointless ride;  
that life truly is.

Those who walk away.  
They take care not to stray  
into territories unknown  
taunted by the man's frown.  
Who cares?

If they laugh at you  
take it as 'cowardice' through and through;  
then ignore them for they are wrong.  
You've had the strength, strong;  
to keep your head held high  
and walk right on by.

Lignes de fuite  
Une par une, les lignes s'accumulent  
Mais des traits rien ne paraît  
Et le dessein sombre dans le ridicule.

D'une noirceur lasse des temps indéfinis  
Le graveur cherche sa matière.

Dans les recoins du monde archivé  
Se serait-il égaré ?

La route est la même  
Qui mène de la remembrance à l'oubli.

For Cowardice Not War  
A warrior with clean armour  
Has not seen real battle

He bares his fangs  
But bares no scars

A bladeless sword  
All for show  
A conversation piece  
For cowardice not war

A rusted knight  
With a heart of gold  
So cumbersome  
It became a curse

A war for wimps  
A social life battle  
Casualties of black sheep  
Are the real fallen soldiers.

The Kleptocracy  
Everyone on this Earth  
Wants a better quality of life.  
The Poor,  
Worldwide,  
Want to be treated fairly.  
However,  
Very few of us  
Have the Courage  
To be completely Open and Honest  
About our Feelings,  
Thoughts,  
And Perceptions about Life.  
In a World of Secrecy and Suppression,  
Terrorists,  
War Profiteers  
And Pimps  
Will always be  
The Winners.  
We can give Lip Service  
To Human Rights,  
Women's Rights

And Conservation of the Environment,  
But,  
Because so many of us  
Have been Intimidated into Silence,  
The World is becoming  
More and more,  
Of a KLEPTOCRACY,  
In which The Biggest Crooks and Criminals  
Are Those who rule,

Deception  
See with an eye of wisdom,  
Yet you'll fail to understand the reality,  
Drag the lies until their skin bleed,  
Yet you'll fail to expose the reality,  
No matter what you do to make them believe,  
Deception is the only reality.  
In today's world, deception is the only reality.  
When you are able to understand the truth it's too late.  
If you preach the truth, people would say either you are a liar or a mental case.  
Because we believe in what we see.  
And we only see what we want to see.

Living a Life of Deception  
It's All About Perception  
No one can understand you, because you're not your typical run of the mill  
it's all due to your philosophy, a mind that thinks but a tongue that sits still  
years quickly pass you by, finding yourself alone and in a world of your own  
as you learn the value of pen and paper, finding refuge in a place unknown

Like being trapped in a bubble, peering out upon the world as a screen  
watching everyone going about their business, while you remain unseen  
transfixed on your reality you close your eyes, wishing it were but a dream  
unable to fathom the depths of emotions, waiting to take you to the extreme

The reality of who you are can no longer be ignored, facing each day from anew  
accepting the fact that you have no control, from others, forced to take your cue  
this world is all about rising above, as it starts at the very moment of conception  
it follows us throughout life, as we learn the rules, mastering the art of deception

The external images you portray, a needed smokescreen, to maintain the perception your moves are well planned, the primary focus of your attention, without exception failing to have considered the matter, you realize you haven't made the connection your insecurities have misdirected your behavior, demanding the world's affection

There's no denying this fact; life is nothing more than a continuous act of deception while the true level of your mastery of it, your ability to advance without aggression at the end of the journey, despite what we went through, it might come as a surprise realizing that happiness was always there, only hidden from us by our own disguise

Why continue living the life of lies, playing the games people play, there is yet hope break the bonds of self-deception, because this vanity has really become your dope be who you really are, a genuine beauty to behold, and in you will someone admire your hidden love now freed, surrendered to someone true, to build that endless fire

Fearless Warrior

Fearless Warrior prepare for battle

Stand your ground

Fearless warrior dawn your armor

Be prepared for all things-Good and bad

Fearless Warrior hold your head up high

Don't get discouraged

This battle will only be for a little while

Fearless warrior prepare for battle

Stand your ground

Fearless Warrior dawn your armor

Hold true to your heart's desires

Fearless Warrior

Don't forget to look around you

Don't forget you have backup

Fearless Warrior stand your ground

Prepare for battle

Fearless Warrior remember

you don't always have to be fearless

Poem About Warriors

This was supposed to be a poem,  
about warriors.

About great men and courageous actions!

About heroes and patriotism and bravery!

But, it is not.

This is a poem, about broken lives and shattered minds.

This is a poem, about dead children, and massacres and all the images and acts of war,  
that crush great men, brave men.

This is a poem, about the defeat, in every victory.

This is a poem, about living men,  
who will never leave the battlefield.

It was supposed to be a poem,  
about warriors.

But it is not.

Strength

I've made the same decision

Almost every hour  
of almost every day

You will never know my struggles

But I'm holding on  
and I'm okay
